MADE IN EU

SC BINALIA SRL: at the beginning of the nineties of last century, Binalia was already working brass manufactures, and it was taken from a group of European entrepreneurs, who, in their original nations, praised solid experiences in the specific sector. Between these entrepreneurs there were persons engaged as much as in the production and in the marketing of those goods. The common research of new business opportunity was the glue for their different experiences. In that period the company knew a thorough renovation, and it was endowed of cutting edge machineries conducted by specialized technical. Beginning from the first years of the new millennium the company is the leading actor as much as corporate structures changes and a redefinition of its own core business: from a subject acting on behalf of third parties to a company with its own range of products for doors and windows, ranging over brass and other raw materials.

SC VEROFER SRL: Verofer was founded at the end of the nineties of last century, from a group of entrepreneurs both Romanians and Italians, who were able to count on the experience of Mr Vercellini, the majority shareholder, working from long time in the metal mechanical environment. He, and his staff, planned the diversification of the productions, adding to the traditional line of handles and locks even the line of security cylinders, to offer to the costumers a diversified fan of goods dedicated at the security of buildings. In the years, the productive flairs of Mr Vercellini have favored the emergence of synergies with European companies (leaders in the industry of doors and windows), which praise a specialization both in the realization of hinges for doors, anodized handles, high system of locks, and in the innovative sector of the sliding doors.

In the next months, the productive ways of Binalia and Verofer will join, to create an unique business reality able to purpose on the market as absolute protagonist in its sector.

Always paying attention to the requests of the costumers, we could better head the chance in the domestic and foreign market, combining the energy of the staff both of Verofer and Binalia.

The hallmark of our products is the full respect of the European standards of quality, security and design. It is no coincidence, for example, that our cylinders are completely realized in brass, with raw material certificate EN 10 204 2.2 and have implemented a quality system ISO 9001:2008.

A large range of our production is realized in brass, alloy of copper and zinc, which is easy to mold and hard proof to corrosion, while our manufactures in zamak respect the European standard as 410 EN1774 and are ermined with copper, which isolates and protects against corrosive agents.

Protagonists from years on the international market as well as on the Romanian market, for Binalia and Verofer, during their diversified production history, the respect of costumers has been their qualifying point. The companies succeeded by achieving productive performances, where the quality of production is combined with style and good functionality of the various range of goods which gives birth to the new catalogue we are pleased to present.

To celebrate the 30th anniversary of our foundation, we created a modern website where you can find technical and specific information about every product.

SC.Binalia SRL: Cu o prezență activă în domeniul producerii de articole, Binalia a fost înființată la începutul anilor '90 ai secolului trecut de către un grup de antreprenori europeni care aveau deja avantajul unei experiențe solide, cu precădere în sectorul realizării produselor din alamă dar și în domeniul comercializării acestora.

Modalitatea optimă de a fructifica sinergia diverselor experiențe era aceea de a porni împreună spre căutarea unor noi oportunități de business.

În acea perioadă renaște o profundă restructurare a firmei prin implementarea unor tehnologii de avangardă puse în operă de un personal specializat.

În primii ani ai noului mileniu Binalia a cunoscut modificări atât în structura acționariatului dar mai ales și-a redefinit propriul core business trecând de la etapa în care realiza produse la cererea firmelor partenere la definirea unei game proprii de articole pentru uși și ferestre realizate atât din alamă cât și din zamac.

Pe parcursul următoarelor luni, Binalia și Verofer își vor unifica departamentele de producție, cu scopul de a da viață unei unice realități corporative capabilă să se impună pe piață ca un adevărat lider al branșei pe care activează.

Dintotdeauna atenți la exigențele clienților noștri și cumulând energiile partenerilor noștri strategici cu specializarea personalului tehnic provenit atât din Binalia cât și din Verofer vom putea înfrunta cu forță maximă provocările pe care ni le adresează piața indigenă dar și cea internațională.

Semnul distinctiv al produselor noastre îl constituie deplinul respect al standardelor europene de calitate, siguranță și design. Astfel în mod deosebit cilindri noștri sunt realizați în întregime din alamă, utilizând materie primă certificată EN 10 204 2.2 și având implementat un sistem de management al calității ISO 9001:2008.

Mare parte dintre produsele noastre sunt realizate din alamă, aliaj de cupru și zinc, ceea ce permite deopotrivă o prelucrare facilă și o rezistență crescută la coroziune, în timp ce articolele din zamac respecta normele europene 410 EN 1774 și sunt supuse unui tratament galvanic care le protejează de acțiunea agenților corozivi.

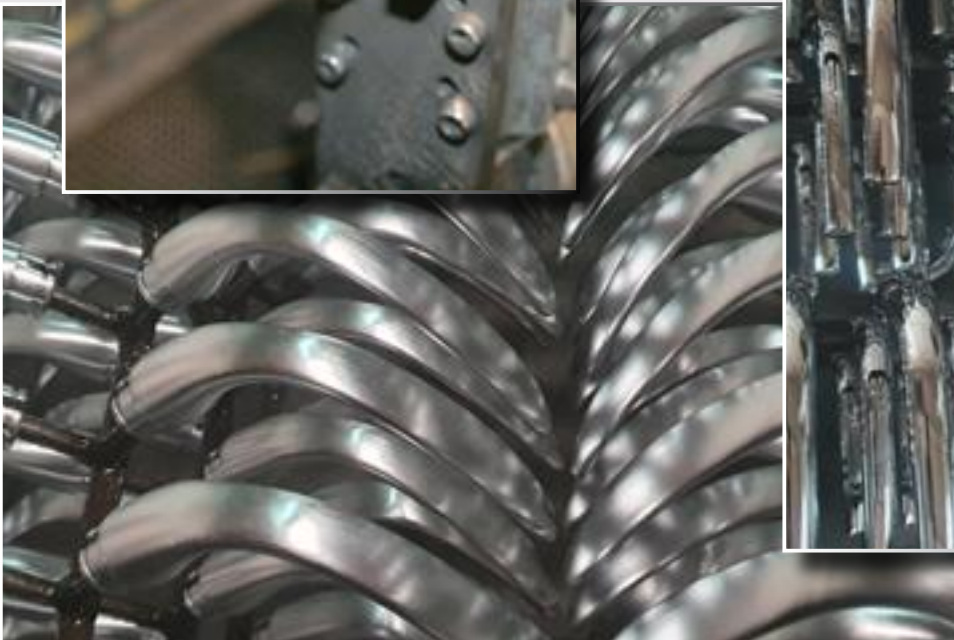

Prezente ca protagoniste atât pe piața internă dar și pe cea internațională, Binalia și Verofer - de-a lungul bogatei lor istorii productive - au transformat respectul față de client într-un element definitoriu, având ca scop atingerea unei performanțe productive prin care calitatea procesului de producție se combină cu stilul și funcționalitatea bogatei game de produse care au dat naștere acestui nou catalog pe care ne face plăcere să vi-l prezentăm.

Cu ocazia aniversării a 30 de ani de activitate, firmele noastre întâmpina clienții online cu un nou site web, modern, ușor de consultat și bogat în date tehnice specifice fiecărui articol.

SC Verofer SRL: Înființată la sfârșitul anilor '90 de un grup de investitori de origine italiană și română care au contat pe experiența lui Girolamo Vercellini, acționar majoritar, care a planificat diversificarea gamei de produse prin completarea gamei tradiționale de articole din alamă și zamac cu cilindri de siguranță, din preocuparea de a oferi clienței o gamă cât mai variată de articole dedicate siguranței clădirilor civile, comerciale și industriale.

Intuițiile productive ale lui Vercellini au favorizat de-a lungul timpului nașterea unor sinergii cu alte firme europene (lideri în sectorul de feronerie pentru uși și ferestre), în special italiene, specializate la rândul lor în producerea unor sisteme inovative de glisare, realizarea de balamale cilindrice, producerea manerelor din aluminiu anodizat etc.

BINALIA®
Handles & Accessories

“Nu l-am întrebat pe angajator despre salariul pe care mi-l va da sau despre munca pe care va trebui să o fac, nu mi-a păsat: singurul lucru care m-a interesat a fost să-mi schimb viața.

Precum companiile mele transformă materiile prime pentru a produce cilindri de siguranță și mânere pentru uși, tot așa inventivitatea mea a reușit să transforme sacrificiile făcute în conștientizarea faptului că fiecare obiectiv este realizabil.”

“I didn't ask my employer about the salary he would give me or the job I would have to do, I didn't care: the only thing that interested me was to change my life.

Just as my companies transform raw materials to produce cylinders and door handles, so my resourcefulness has been able to transform the sacrifices made into the awareness that every goal is achievable.”

“Non chiesi al mio datore di lavoro il salario che mi avrebbe dato o il lavoro che avrei dovuto fare, non mi interessava: l'unica cosa che mi interessava era cambiare la mia vita.

Così come le mie aziende trasformano materie prime per produrre cilindri e maniglie per porte, così la mia intraprendenza ha saputo trasformare i sacrifici fatti nella consapevolezza che ogni meta è raggiungibile.”

Girolamo Vercellini

Verofer®

BINALIA®

“A businessman is both a pioneer and an inventor, he acts with bravery, he is able to loose with dignity, but he is able to start again with enthusiasm.”

“Un om de afaceri este deopotrivă un pionier și un inventator, actionează cu curaj, este capabil să piardă cu demnitate, dar este întotdeauna în stare să reînceapă cu entuziasm.”

GIROLAMO VERCELLINI
Founder Verofer srl

REGISTRATION CERTIFICATE

This is to certify that the management system of

SC VEROFER SRL

has been assessed by AIA EUROPE and registered against the requirements of

ISO 9001:2015

GENERAL SALES RULES

ORDERS

The following sales conditions rule over all the orders accepted by SC VEROFER SRL.

TRANSPORT

The transport company assumes its responsibility for all the risks and all the threats that occurs during the transport process even if our company organises the spediton directly to our customers by using a third transport company. SC VEROFER SRL does not assume its responsibility for eventual delays caused by the transport companies.

CLAIMS

In case of eventual claims our company must be informed in maximum 10 days after the checking on delivery.

We do not accept returns of the goods that were delivered according to the original order that we received from our customer. In any case when a client want to return a quantity of goods, the list of the goods to be returned must be accepted in advance by SC VEROFER SRL.

GUARANTEE

With the present SC VEROFER SRL guarantees that all its production programe is controled against the vices of production process. This mentioned guarantee is limited to the duty of SC VEROFER SRL to replace the goods that it recognize as having deficiencies without any other responsibility.

TERMS OF DELIVERY

The eventual delays in delivery do not give to our customers the right to pretend any reparation.

PRODUCT

The information contained inside this catalogue is approximate.

SC VEROFER SRL reserves his rights to improve the characteristics of its goods relative to the continue technical evolution.

DISPUTES

Any eventual dispute concerning the delivered goods or concerning our agreement will be judged by the instance court of ARAD.

CONDITII GENERALE DE VANZARE

COMENZI

Condițiile prezentate mai jos se aplică tuturor comenzilor acceptate de către SC VEROFER SRL.

TRANSPORT

Transportatorul răspunde pentru eventualele riscuri și pericole survenite pe parcursul transportului chiar și atunci când expedierea este făcută de către firma noastră la adresa beneficiarului prin intermediul unui terț transportator.

SC VEROFER SRL nu răspunde pentru întârzierile la livrare datorate transportatorilor.

EVENTUALE RECLAMAȚII

Eventualele reclamații trebuie transmise în scris în cel mult 10 zile de la recepționarea mărfii de către beneficiar.

Nu se acceptă restituiri de marfă atunci când livrarea a fost făcută de către furnizor conform comenzii inițiale a beneficiarului. In orice situație în care se dorește efectuarea unui retur de marfă, lista cu produsele returnate trebuie acceptată în prealabil de către SC VEROFER SRL.

GARANȚII

SC VEROFER SRL garantează pe această cale că toate produsele realizate sunt verificate împotriva viciilor ce pot surveni pe parcursul procesului de producție.

Garanția anterior menționată se exercită prin înlocuirea produsului recunoscut de către noi ca fiind defect fără a atrage în astfel de cazuri acordarea unor eventuale despăgubiri.

TERMENE DE LIVRARE

SC VEROFER SRL nu acordă garanții generale de nici o natură în ceea ce privește termenele de livrare. Eventualele întârzieri nu conferă dreptul beneficiarului de a pretinde despăgubiri indiferent de natura acestora.

PRODUS

Informațiile conținute în acest catalog sunt furnizate cu titlu informativ.

SC VEROFER SRL își rezervă dreptul de a ameliora fără preaviz caracteristicile produselor sale în funcție de permanenta evoluție tehnologică.

LITIGII

Soluționarea tuturor eventualelor litigii referitoare la marfă sau la contractul de colaborare este de competența instanței judecătorești din Arad.
